

RESOLUTIONS FOR 2020

- **Work on my business every day**, even if it is just for a little while. That could mean sending out letters, flyers or emails, or giving out business cards
- **Get organized** – what does your office look like when you are NOT working?
- **Keep better track of expenses and income** and know when spending money on your business is a good idea, and when you might just be wasting precious resources
- **Try something new** – a new program, a new marketing idea – to move the needle a bit
- **Set realistic goals** – this is a business not a “get rich quick” scheme. You are in it for the long haul
- **Stop jumping from program to program** – stick with something long enough, using the resolutions above
- **Go all in** – even if you do this part time, do the things you need to do to become full time at network marketing
